Global OilCrop price vs production

$r^2 = 0.91$ $pval = 0$

$$y = -76.4 + 0.44533 * x$$

Global OilCrop price vs allocation

$r^2 = 0.34$ $p\text{val} = 0.01104$

$$y = 356.73 + -0.32984 * x$$

Global OilPalm production vs allocation

$r^2 = 0.99$ $p\text{val} = 0$

$$y = -863.54 + 6.077 * x$$

Global OilPalm price vs production

$r^2 = 0.96$ $pval = 0$

$$y = -9.46 + 0.06278 * x$$

Global OilPalm price vs allocation

$r^2 = 0.94$ $p\text{val} = 0$

$$y = -63.35 + 0.38035 * x$$

Global OtherGrain production vs allocation

$r^2 = 0.69$ $p\text{val} = 2e-05$

$y = 757 + -0.299 * x$

Global OtherGrain price vs production

$r^2 = 0.62$ $p\text{val} = 1e-04$

$$y = -95.05 + 0.34887 * x$$

Global OtherGrain price vs allocation

$r^2 = 0.85$ $pval = 0$

$$y = 222.51 + -0.14661 * x$$

Global Rice production vs allocation

$r^2 = 0.01$ $p\text{val} = 0.74803$

$$y = 788.36 + 0.024 * x$$

Global Rice price vs production

$r^2 = 0.05$ $pval = 0.36247$

$y = 55.84 + 0.09022 * x$

Global Rice price vs allocation

$r^2 = 0.79$ $pval = 0$

$$y = 229.47 + -0.10407 * x$$

Global RootTuber production vs allocation

$r^2 = 0.09$ $p\text{val} = 0.22411$

$$y = -142 + 2.646 * x$$

Global RootTuber price vs production

$r^2 = 0.86$ $pval = 0$

$$y = -82.47 + 0.15671 * x$$

Global RootTuber price vs allocation

$r^2 = 0.34$ $p\text{val} = 0.01044$

$$y = -327.32 + 0.86881 * x$$

Global Soybean production vs allocation

$r^2 = 0.46$ $p\text{val} = 0.00184$

$$y = 1011.9 + -0.577 * x$$

Global Soybean price vs production

$r^2 = 0.75$ $p\text{val} = 0$

$$y = -34.71 + 0.1978 * x$$

Global Soybean price vs allocation

$r^2 = 0.82$ $p\text{-val} = 0$

$$y = 222.88 + -0.17529 * x$$

Global SugarCrop production vs allocation

$r^2 = 0.25$ $p\text{val} = 0.03389$

$$y = -2315.87 + 19.335 * x$$

$$r^2 = 0.8 \quad p\text{-val} = 0$$
$$y = -49.4 + 0.03413 \cdot x$$
$$y = -49.4 + 0.03413 * x$$

Global SugarCrop price vs allocation

$r^2 = 0.03$ $pval = 0.47978$

$$y = -11.27 + 0.26118 * x$$

Global Vegetables production vs allocation

$r^2 = 0.87$ $p\text{-val} = 0$

$$y = -714.09 + 4.322 * x$$

Global Vegetables price vs production

$r^2 = 0.93$ $pval = 0$

$$y = -103.69 + 0.23535 * x$$

Global Vegetables price vs allocation

$r^2 = 0.95$ $pval = 0$

$$y = -320.59 + 1.10639 * x$$

Global Wheat production vs allocation

$r^2 = 0.33$ $p\text{val} = 0.01336$

$y = 1030.86 + -0.123 * x$

Global Wheat price vs production

$r^2 = 0.37$ $pval = 0.00706$

$$y = -76.12 + 0.17747 * x$$

Global Wheat price vs allocation

$r^2 = 0.85$ $p\text{val} = 0$

$$y = 163.9 + -0.05776 * x$$
